# CA-EASYGET Fiber Endface Inspector

The CA-EASYGET fiber endface inspector is the masterpiece of our engineer which with excellent performance and convenient operability, trust it is the best choice for fiber endface inspection. Taking use of 220k pixel of TFT sharp and finely LCD, which magnify about 200 times of object, it makes you easier to judge the status of fiber endface. And its compact size made it ideal tool of connector endface inspection before fiber network installation, varies of adapters meet different requirements on inspect male fiber connectors&female fiber connectors, such as FC SC ST E2000 LC MU and TOSA ROSA fiber endface.

It keeps working about 6 hours with 12V re-chargable battery, which installed in monitor, or working by powered supply, and another choice for display is LCD monitor.

## Features:

- Sharp picture;
- Easy operation;
- Compact size, light weight;
- Low power consumption, working over 6 hours continuously one time after full recharge

## Applications:

- Fiber network installation ;
- SFP, XFP, TOSA, ROSA inspection;
- Fiber instrument output connector inspection;
- Fiber connector endface inspection;

## Specification:

<b>Specification</b>	
Image Zoom	200× ;400X
AV output	PAL
Display Screen	3.5 " TFT 220 K LCD
Power consumption	3w
working temperature	-10°C—+50°C
Storage Temperature	-20°C—+60°C
Voltage	12V recharge battery incl. or DC 12V, W/adaptor
working hour	over 6 hours
Dimension	monitor: 205mm(L)×94mm(W)×25mm(H) microscope:φ23mm×160mm

## **CA OPTRONICS GROUP's Test and Measurement Support, Services and Assistance**

CA OPTRONICS GROUP provides high performance, high value, low cost, affordable test and measurement instruments solution for our customers. Our extensive support sources can help you choose right CA OPTRONICS GROUP' products for your application and apply them successfully. Every instruments and system we sell a global warranty. All of our instruments with at least 18 months factory warranty.

## Our Promise

All of CA OPTRONICS GROUP's test and measurement instruments and system will met its advertised performance and functionality. When you select CA OPTRONICS GROUP's products, we can verify if it is work properly, help with products operation, and provides the basic measurement assistance for the use of special capabilities.
